

U.S. government obligations income information

Important tax information for 2023

This tax update provides information to help you properly report your state and local tax liability on ordinary income distributions you received from your mutual fund investments in 2023.

On the next pages, you'll find a list of Vanguard funds that earned a portion of their ordinary dividends from obligations of the U.S. government. Direct U.S. government obligations and certain U.S. government agency obligations are generally exempt from taxation in most states.*

Percentage of each fund's total ordinary dividends derived from U.S. government obligations in 2023

Check with your state or local tax office or with your tax advisor to determine whether your state allows you to exclude some or all of the income you earn from mutual funds that invest in U.S. government obligations. If your state allows an exclusion, refer to the next page for the percentage of ordinary dividends derived from U.S. government obligations that may be excluded for each fund in which you're invested. To determine the portion of dividends that may be exempt from your state income tax, multiply the amount of "ordinary dividends" reported in Box 1a of Form 1099-DIV by the percentage listed in the following table.
